

AI Champ Task

Assignment Guidelines

1. Exercises can be solved using any Generative AI tool (ChatGPT, Gemini, CoPilot, Claude, etc.).
 2. Each exercise solution must include:
 - o The prompts used
 - o The AI-generated output
 - o Any refinement prompts if applied
-

Exercise 1: Creating an Interactive Story

Objective:

Learn how to use a Generative AI tool to create engaging, interactive stories.

Baseline Story:

“Once upon a time in a magical forest, there was a young girl named Lily who loved to explore. One sunny afternoon, she stumbled upon a mysterious cave.”

Tasks to Perform:

1. Paste the above story line into a Gen AI tool.
2. Prompt the AI to generate 3 different genres of the story:
 - o Humorous
 - o Horror
 - o Fantasy
3. Save all three outputs.
4. Submit the prompts and the AI-generated stories.

Exercise 2: Generating Summary of a Document

Objective:

Use a Generative AI tool to summarize a long document and extract key points in a structured format.

Tasks to Perform:

- 1. Use a Gen AI tool to create a document of 4–5 pages on any topic of your choice.**
- 2. Copy and save the document.**
- 3. Use a Gen AI tool to list key points in a tabular format as shown below:**

Main Subject Discussed	Example Scenario Discussed	Advantages	Disadvantages	Summary (3 to 5 lines)
------------------------	----------------------------	------------	---------------	------------------------

- 4. Submit the table along with the prompts used.**
-

Exercise 3: Generate Multiple Choice Questions (MCQs)

Objective:

Use a Generative AI tool to generate quiz questions from the document created in Exercise 2.

Tasks to Perform:

- 1. Input the document from Exercise 2 into the AI tool.**
- 2. Prompt the AI to generate 10 multiple-choice questions.**
- 3. Each question must include:**
 - Topic**
 - Subtopic**
 - Complexity (Easy / Medium / Hard)**
 - Question text**
 - Answer choices**
 - Correct answer**
 - Reference text (from the document)**
- 4. Submit the questions and prompts used.**

Exercise 4: Creating Sales Pamphlets

Objective:

Use a Generative AI tool to generate a single-page marketing pamphlet for a creative scenario.

Scenario:

Imagine you are a creative director at a dynamic marketing agency given the opportunity to launch a campaign for an innovative eco-friendly water bottle.

This bottle isn't just another reusable product; it integrates unique features like biodegradable materials, high durability, and a design made in collaboration with environmental activists and designers. Your challenge is to convey these distinctive attributes in an advertisement that captures the essence of innovation and sustainability without falling into predictable environmental messaging.

Tasks to Perform:

- 1. Prepare a single-page sales pamphlet.**
- 2. Use a Gen AI tool to generate a sales pitch for the product.**
- 3. Create attractive images using a Gen AI image tool with the help of prompts.**
- 4. Submit the pamphlet, AI-generated text, and images along with the prompts used.**

Submission Requirements

- Include all prompts used for each exercise.**
- Include all AI-generated outputs.**
- Organize outputs clearly by exercise number and title.**
- Save your work in a single document or folder (PDF/Word preferred).**
